

UTSAV THUMMAR

Software Engineer

ABOUT ME

Experienced in the development of software for web applications, desktop applications. Proficient in collaborating with cross-functional teams to ensure the successful delivery of products. Possesses the ability to swiftly and effectively troubleshoot and debug software applications.

EDUCATION

Bachelor of Engineering, Electrical Engineering, Completed, July 2020
Gujarat Technical University (VVP Engineering College)
Rajkot, Gujarat

WORK EXPERIENCE

October 2022 - Current *Delhi, Delhi*
Software Developer
NacstergenAI Pvt Ltd

Extensive experience in developing software applications on distributed systems using HTML, CSS, and Angular programming languages. Worked on annotation and validation for machine learning using OpenCV. Expertise in these areas allows me to deliver professional and high-quality solutions.

March 2024 - Current *Delhi, Delhi*
Software Engineer
Wings Tech Solutions

Project Name: US Legal Services
Duration: Ongoing
Role: Full Stack Developer
Technologies: PHP, Angular, MySQL, Vue.js, Nuxt.js, Node.js
Project Overview:

US Legal Services is a comprehensive legal case and subscription management system built to handle legal plans, attorney network integrations, customer and employer portals, and service workflows. The platform serves multiple stakeholders through dynamic interfaces and real-time data management.

Key Responsibilities:

- Backend Development (PHP & MySQL)**
 - Developed and maintained RESTful APIs for legal plan management, user roles, billing, and case workflows.
 - Optimized complex queries and designed scalable MySQL schemas.
 - Implemented server-side validation, authorization, and secure API handling.
- Frontend Development (Angular ñ 1.5 years)**
 - Built dynamic, responsive UI components for administrative and attorney dashboards using Angular.
 - Integrated APIs and implemented form-level validation, modals, and conditional rendering.

CONTACT

SKILLS

- PHP
- Angular
- JavaScript
- HTML
- CSS
- Vue.js
- Nuxt.js
- My SQL
- Aws Cloud Services
- Node.js
- Serverless Framwork

LANGUAGES

- English ○○○○
- Hindi ○○○○
- Gujarati ○○○○

PERSONAL INFORMATION

Nationality: India

- Applied best practices in state management and modular architecture.
- **External Portals (Vue.js ñ 1 year | Nuxt.js ñ 6 months)**
- Designed and maintained user-facing portals (e.g., attorney portal, customer portal) using Vue.js.
- Used Nuxt.js for server-side rendering and routing optimization in SEO-sensitive sections.
- Ensured mobile responsiveness and cross-browser compatibility.
- **Microservices & Integrations (Node.js ñ 1 year)**
- Developed backend services for file processing, task queues, and third-party API integrations using Node.js.
- Handled authentication flows, scheduled tasks, and real-time updates via WebSockets.

Tools & Practices:

Git, Postman, FCM, AWS S3, REST APIs, JWT Auth

Outcome:

Contributed to building a scalable and modular legal service platform that supports thousands of active users. Improved performance and maintainability across both internal admin tools and external-facing portals.

 INTERNSHIPS

June 2022 - February 2023

Bangalore Urban, Karnataka

Full Stack Developer (Python)

PySpiders

Relocated to Bangalore to pursue and successfully complete this intensive training program, demonstrating strong commitment to professional development.
